Public event & discussion

Sunday, September 9th 2018, 4.00 pm

Presentation of the (electronic) archive

This afternoon there will be an introduction of the archives of the anarchist library. In particular, the comprehensive electronic archive will be presented, which among other things offers the possibility of full text research into thousands of anarchistic and related publications and is open to anyone interested in anarchist history beyond having to rely on so-called anarchism experts.
