

ON THE ANARCHIST STRUGGLES IN GREECE AND THEIR CONTRIBUTION TO THE SOCIAL WAR

Saturday, 29th of June 2019 18:00

Anarchistische Bibliothek Fermento, Zweierstrasse 42 8004 Zürich

The exchange of views and experiences between comrades from different places has always enriched the ways anarchists think, act and organise.

Working in this direction, a chronicle of the social war in greece will be presented, starting from the insurrection of 2008 until today. Anarchists' actions and their role in the movements that developed within these years will be thus summarised, by highlighting important pieces. There will be also expressed experiences and thoughts on the different ways of self- organisation that have been tried, the collective reflexes of the anarchist scene and the polymorphism in the analysis and action.

The presentation and the following discussion will be in english but whisper-translation can be offered
